Medicare Made Easy

Designed and offered exclusively to Medicare retirees, Capital Health Plan Retiree Advantage (HMO) allows members to participate in their group health plan after retirement.

This employer-sponsored plan gives retirees their Medicare Parts A, B, and D benefits as well as additional benefits. This plan has no limits on the amount of covered prescription drugs.

You will continue to get all of your medical services from the CHP Medicare Advantage (HMO) plan network providers, except in emergency or urgent care situations, or for out-of-area dialysis services. Our network consists of doctors, hospitals, pharmacies, and other health care providers. It includes retail, long term care pharmacies, Indian/Tribal/Urban pharmacies, along with home infusion drug pharmacies.

To be eligible, your employer must offer CHP Retiree Advantage benefits. You must be entitled to Medicare Part A (hospital insurance), enrolled in Medicare Part B (medical insurance), and continue to pay your Medicare Part B premium if not otherwise paid for under Medicaid or by another third party. Most Medicare beneficiaries can join.*

You also need to be a permanent resident of our service area, which includes the Florida counties of Gadsden, Jefferson, Leon, and Wakulla.

If you are already a Capital Health Plan member, your benefits and copayments will generally remain the same—and you will have additional benefits and a premium based on the benefit level that your former employer has purchased.

Coverage includes:

- Group Selected Copayments
- Glasses (up to \$150 every two years)
- Health Center/Fitness Class Reimbursement (up to \$150 each year)
- Routine Eye and Hearing Exams
- Emergency Coverage when traveling anywhere in the world
- Medicare Part A and Part B Benefits
- Medicare Part D Benefits (Prescription Drug Benefits) with no gap in coverage
- 24-hour Health Care Professional Hotline
- Online Personal Health Record through [CHPConnect](#)

**In some cases, you may not be able to join CHP Retiree Advantage if you have end-stage renal disease (ESRD).*
